

# Step-by-Step Instructions for Completing AWS Labs on Troven

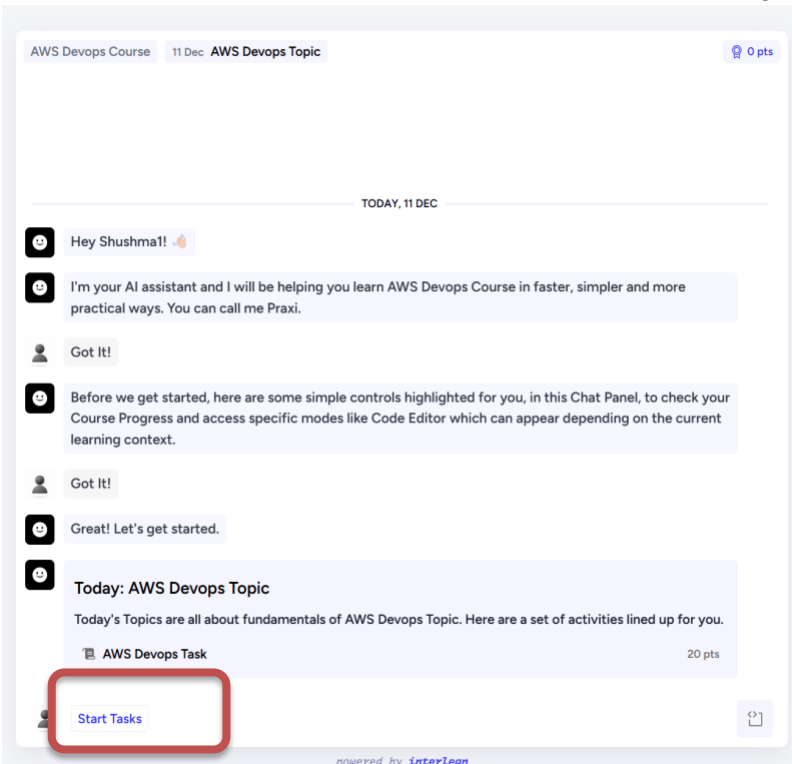

Welcome to the lab session!

Follow these simple and detailed steps to complete your tasks using Troven. If you have any doubts, feel free to revisit the steps or watch the provided demo video: [Troven Labs Demo Video](#)

**Helpful Tip:** Ensure you have validated all the tasks using “**Validate**” button in the lab before moving back to Rooman LMS. If you face any issues, reach out to your instructor or technical support for assistance. Good luck with your lab tasks! Keep learning and exploring.

## Step 1: Start Tasks in Rooman LMS

- Log in to your Rooman LMS account.
- Locate and click on the “**Start Tasks**” button to begin the process.

AWS Devops Course 11 Dec AWS Devops Topic 0 pts

TODAY, 11 DEC

Hey Shushma!! 🙌

I'm your AI assistant and I will be helping you learn AWS Devops Course in faster, simpler and more practical ways. You can call me Praxi.

Got It!

Before we get started, here are some simple controls highlighted for you, in this Chat Panel, to check your Course Progress and access specific modes like Code Editor which can appear depending on the current learning context.

Got It!

Great! Let's get started.

Today: AWS Devops Topic

Today's Topics are all about fundamentals of AWS Devops Topic. Here are a set of activities lined up for you.

### Step 3: Open the Labs Section

- A new tab with Troven will open in your browser.
- In the Troven interface, click on the “**Labs**” button to access the available lab tasks.

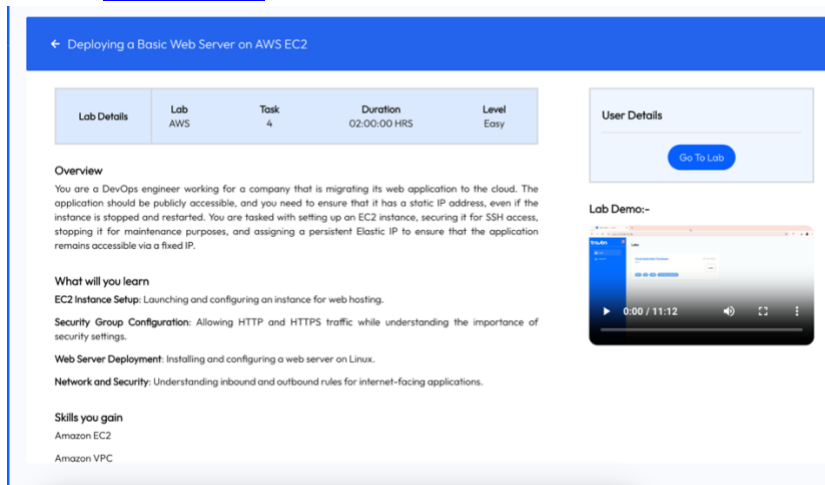

### Step 4: Select the Assigned Lab

- Review the task details provided in Rooman LMS to identify the lab assigned to you.
- In Troven, select the lab corresponding to your assigned task.

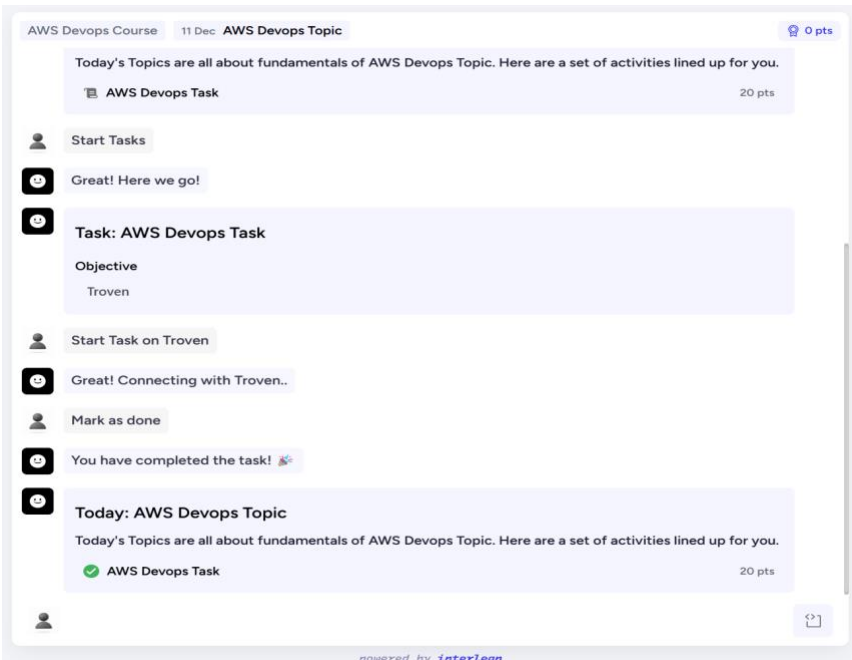

### Step 5: Start the Lab

- Once you’ve selected the lab, click on the “**Go to Lab**” button to begin working on it.
- Watch this video for a detailed walkthrough on how to complete the lab: [Troven Labs Demo Video](#)

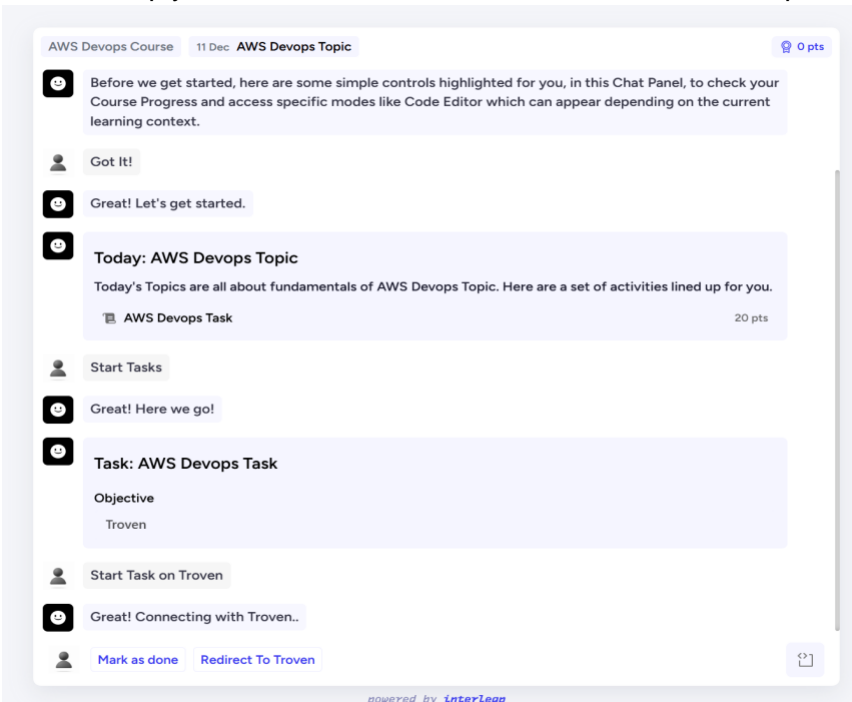

## Step 6: Mark Task as Complete in Rooman LMS

- After successfully completing the lab, return to Rooman LMS.
- Click on the **“Mark as Done”** button to mark the task as completed.

## Step 7: Re-access Troven Anytime

- If you need to revisit Troven, you can do so directly from the LMS portal.
- Simply click on the **“Redirect to Troven”** button to open Troven again.

**Helpful Tip:** Ensure you have validated all the tasks using **“Validate”** button in the lab before moving back to Rooman LMS. If you face any issues, reach out to your instructor or technical support for assistance. Good luck with your lab tasks! Keep learning and exploring.
